Re: Rotation Support for Heat-Dispersant Fan, #10/074,917

Dear Applications Section:

I have reviewed the Interview Summary from Examiner Michael Koczo, Jr. of Art Unit 3746, referring to a phone conversation with me, which took place on October 29, 2003. Examiner Koczo's Summary is correct, and I add the following items.

We discussed identity of the inventors, since it appeared to me that Edward Cheng, the husband of Kuan Kuan Sung, contributed to the invention sufficiently to be named as a joint inventor. I prepared a new Declaration, which was signed by both Kuan Kuan Sung and Edward Cheng, and filed it along with the Reply to the previous Office Action. We also discussed my representation of the applicant(s). A new Power of Attorney was also filed with the Reply. The entire package was mailed to the Office on October 31, 2003.

There were no substantive discussions at the interview of October 29th, except that I stated my belief that the application presented novelty, in light of the prior art submitted to me by Edward Cheng.

I had one further phone conversation with Examiner Koczo on November 20th. We discussed only whether I was required to submit my own Interview Summary from the October 29th phone interview. This document is submitted in response to the conversation. No substantive issues were discussed at that time.

This concludes my Interview Summary. It is presented in letter form, since I could not bring up a Form 413 from the USPTO web site. I request that it be added to the papers mailed to the Office on October 31st.

Yours very sincerely,

DAVID PETER ALAN
